Lucia Simonelli graduated with a PhD from the AMSC program in 2016. Simonelli served as a postdoctoral fellow in the mathematics section at the Abdus Salam International Centre for Theoretical Physics in Trieste, Italy. She was awarded the 2019-2020 American Mathematical Society Congressional Fellowship.

She is currently working in the office of Senator Sheldon Whitehouse of Rhode Island. Her work has been predominantly in dynamical systems, specifically working to prove properties of parabolic flows using functional analytic techniques.
